## Announcement of Donation of Disaster Preparedness Stockpiles

Daiichi Jitsugyo Co., Ltd. (DJK) has donated its disaster preparedness stockpiles to food banking organizations, as part of our inventory replacement process.

DJK has formulated its business contingency plan for disaster preparedness measures, regularly replacing water and food stockpiled. We take initiative to donate to food banking organizations, stockpiled food and water which still have nearly one year remaining before their best-before date.

Food banking activities include providing donated food being of good quality, but not consumed due to mispackaging or being close to best-before dates, at no cost to social welfare organizations and people in need.

DJK supports the activities provided by food banking organizations, and has donated stockpiles this time as shown below:

| Donated stockpiles | Food banking organizations     |
|--------------------|--------------------------------|
| 2,058 canned food  | Second Harvest Japan (NPO)     |
| Drinking water     | FUKUSHIMA INOCHI NO MIZU (NPO) |

Going forward, DJK will continue to make donations, tackling social issues to make a positive impact on society.
