Completion Ceremony Held for Genkai Biogas Power Plant

Daiichi Jitsugyo Co., Ltd., (hereinafter “DJK”, Head Office: Chiyoda-ku, Tokyo, Japan, Representative Director, President & CEO: Ichiro Uno), a general machinery trading company, participated in the completion ceremony of Genkai Biogas Power Plant (hereinafter “the Plant”) held on July 23, 2023, which is operated by Genkai Biogas Power Plant Co., Ltd. (Head Office: Genkai-cho, Higashimatsuura-gun, Saga, Japan, Representative Director, President & CEO: Tsutomu Oshida, hereinafter “Genkai Biogas Power”).

The Plant is one of the largest-scale power plants in the Kyushu region, which generates electric power utilizing fermented gas generated through heating livestock waste, including bovine waste. DJK has been contributing to the promotion of reusable energy in the technologies, such as solar power, geothermal power, biomass (including bioethanol-related biomass), and among others. For the Plant, DJK has delivered multiple pieces of main equipment, including gas engine power generators.

Some fifty people were in attendance in the ceremony, such as Kansai Holdings Co., Ltd., which has invested in and operated the Plant, Green Finance Promotion Organization of General Incorporated Association, which is a co-capital investor, TRES Co., Ltd., local government officials, finance companies, and constructors, including DJK.

It is expected that the Plant will generate electric power equivalent to annual consumption of 4,500 general consumers households, as well as reduce 3,700 tons of CO₂ per annum. In addition, the Plant can help to dispose of livestock waste, which is a long-standing issue in the region, and to take the lead of sustainability in the region having resources of livestock brands.

DJK will strive for the realization of a decarbonized society, further expanding its business fields, as well as for being of assistance for community industries.
